

The Fruit Basket

The Fruit Basket is a live action series about Bullying and prejudices.

The Fruit Basket follows the lives of eight Fuits and a vegetable living together and dealing with real everyday communication problems we all know but dont like.

Even though the stories revolve around the difficult subject of bullying and prejudice they are full of humor and kindness and show us how we can get ourselves out of bad situations or communication problems without anyone being the loser or the underdog in the situation.

The Fruit Basket team is looking to cooperate with a Network who is interested in eliminating bullying and prejudice from the world and sees the potential in the multiplatform opportunities and licensing in the Brand.

The first 12x12 episodes are finished and 26x12 are in development.
